DETAILED ACTION

Priority

No foreign or domestic priority is claimed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Independent claim #5, is allowed over the prior art as previously indicated in office action dated on 10/21/2004.

Independent claim # 7 is allowed over the prior art which does not disclose a biaxial motor having three different shafts two rotating shafts and one fixed shaft, in which a motor frame including first and second side walls fixed on both sides in an axial direction of a fixing shaft, a first revolving shaft and a second revolving shaft positioned between the first side wall and a second side wall and arranged concentrically with the fixed shaft and through a first bearing structure and a second bearing structure. In combination, with a first rotational position detecting sensor including a first sensor rotor provided with the first revolving shaft and first rotation frame and a first sensor stator arranged on a first side wall so as to correspond to a first sensor rotor and functioning to detect a rotational position of a first revolving shaft and a second rotational position detecting sensor including a second sensor rotor provided on one of a second motor revolving shaft and rotation frame and a second sensor stator provided on the second side wall so as to correspond to a sensor rotor and functioning to detect a rotational

position of said second revolving shaft; with the a first motor section including a first motor rotor provided on the other of the first revolving shaft and first rotation frame and a first motor stator provided on the first side wall so as to correspond to a first rotor and functioning to apply rotational force to a first revolving shaft and a second motor section including a second motor rotor provided on the other of a second revolving shaft and second rotation frame and a second motor stator provided on a second side wall so as to correspond to a second motor rotor and functioning to apply rotational force to a second revolving shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Heba Elkassabgi whose telephone number is 571-272-2023. The examiner can normally be reached on Weekdays, 9:00 am to 7:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg can be reached on 571-272-2044. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
